VINIFICATION

Whole grapes are put into the pneumatic press for soft
pressing and the resulting must, after a first racking, is put
into controlled temperature tanks where it remains until it is
used for the production of the sparkling wine. **SECONDARY FERMENTATION**
The must with added yeast cultures selected by La Gioiosa
is then put into vessels where fermentation takes place at a
controlled temperature of 15-16°C to enhance all the

sugar content fermentation is stopped by refrigeration. After
a short settling period the sparkling wine is ready for
bottling.
