### VINEYARD INFORMATION

Areas dedicated to vine-growing in the north-eastern regions of Italy (Veneto and Friuli Venezia Giulia regions) with marly soils of alluvial origin rich in subsoil. The base wine cuvée is made from a blend between Glera and Pinot Nero grapes

### VINIFICATION

Whole white grapes are put into the pneumatic press for soft pressing and the resulting must, after a first racking, is put into controlled temperature tanks where it remains until it is used for the production of the sparkling wine. The red grapes, after pressing, are put into tanks where a soft maceration for extraction of colour and a few tannins takes place at a controlled temperature of 22-23°C. At the same time the aroma is enhanced.
